

Edmonton SIGNARAMA Expands

Contributed by Editor
Sunday, 29 January 2012

The United Franchise Group (UFG), a \$500 million West Palm Beach franchise organization, announced today that Edmonton SIGNARAMA has expanded into the space next door and has a new flatbed printer.

The expansion has effectively doubled their operating space and gives them the capability to increase their project load. With the addition of the new FujiFilm Acuity Advance LT UV Flatbed Printer with white ink option, Edmonton SIGNARAMA can meet almost any request for printing.

The flatbed printer can print on any material – paper, fabric, glass, and wood – of any color up to four feet by eight feet in size.

“Our expansion was necessary; we were outgrowing our small space,” says Colin Reid, the owner. “The additional space gave us the capacity to purchase new equipment that will diversify our capabilities and make us much more efficient. It was long overdue!”

Since 2005 Edmonton SIGNARAMA has stood out among peers and competitors, earning the Top Quality Award in 2006, the Overall Achievement Award in 2008 and 2010, and has been recognized as a member of the Million Dollar Circle from 2007 to 2011.

Edmonton SIGNARAMA will be hosting an open house in April to showcase their expansion and new printer. More information will be released as the time approaches.

For more information on the Edmonton SIGNARAMA call Colin Reid at 780-448-1944.
