Salon experience reinvented

October 7, 2011 Edmonton, AB—Men's grooming concept a bit hit. Tommy Gun's Original Barbershop fills the void for men-only salons.

The new location officially opened July 1 in South Edmonton Common. Co-owner Jason Volk says, "We've reinvented the salon experience, resulting in a brand new, males only location focusing on service and convenience."

The décor is reminiscent of the 1930's era in Chicago or New York, with a retro style, old-school barber shop. Tommy Gun's concept is all about catering to the male customer. In addition to creating appeal through the design and environment, Tommy Gun's adds to the attraction by providing hi-tech in mirror televisions. This is ideal for the guys who want to relax while receiving their service and keep up with their sports at the same time.

They also offer iPads for surfing the internet and arcade style games. As well, each haircut includes a complimentary scalp massage and beverage. The ultimate salon experience for guys includes detailing options like hot shaves and neck shaves.

During the recent grand opening the Edmonton team did 77 free haircuts and 24 hot shaves, asking for donations to help towards prostate cancer research. At the end of the day over \$2,200 was raised to help with this great cause. Tommy Gun's is proud to be a part of the Edmonton community.

Tommy Gun's is a men's barbershop franchise with existing locations in Red Deer, Medicine Hat, Fort McMurray, and are opening late October in Calgary. Tommy Gun's is part of the extended Chatters salon family and maintain that stylists are the backbone of the business. They encourage and enable cutting-edge beauty professionals to become part of a team and enjoy a career that will provide long lasting satisfaction, personal growth, and financial reward. Our philosophy incorporates a shared formula for success that includes a team approach centered on achieving corporate and individual professional goals.
